

# INF 246 Syllabus

Last updated 25.04.11

Lecture notes are available for download at [www.kjhole.com/Networks/Intro.html](http://www.kjhole.com/Networks/Intro.html).

The lectures are based research articles. These articles will be posted on the bulletin board as the course progresses, see web page [www.kjhole.com/Networks/BulletinBoard.html](http://www.kjhole.com/Networks/BulletinBoard.html).

The following textbooks contain useful background material:

M. E. J. Newman, *Networks: An Introduction*, Oxford University Press, 2010.

B. J. Garrick, *Quantifying and Controlling Catastrophic Risk*, Academic Press, 2008.

S. Wolfram, *A New Kind of Science*, Wolfram Media, 2002.
